PRESS RELEASE

3/7/17

Green Waste Pickup

Being that the weather is turning nice and winter came early last year, the City of Rome Department of Public Works couldn't get around a second time to clean up loose leaves and green waste placed at the curb. We will provide a bulk (loose) pickup in the spring. Please pay attention to the Sentinel and Internet for the bulk (loose) pickup to be released later this month. After the bulk (loose) pickup is completed we will return to **only** picking containerized green waste the day before your garbage day. If residents would like to contain their green waste either in biodegradable paper lawn and leaf bags or cans to expedite pickup before the bulk (loose) pickup, please call our office so we can put you on a list for pickup and we will be there as soon as the weather permits. Also, our Transfer Station @ 132 Race Street will be open if you would like to bring this material down; 8:00AM to 2:00PM Monday through Friday.

Brush Pickup

If you place brush at the curb before the bulk (loose) pickup of green waste, please call our office so we can put you on a list for pickup and we will be there as soon as the weather permits. When putting out brush and branches please stack the branches no longer than 5 foot, butt ends towards the road, and with a diameter not to exceed 12 inches. Lastly, please do not pull out hedges; our chipper cannot process the dirt and rocks in the roots. Also, our Transfer Station @ 132 Race Street will be open if you would like to bring this material down; 8:00AM to 2:00PM Monday through Friday.

Thank you,
