To comply with State regulations, public water systems such as those listed above are required to issue a report describing the quality of your drinking water. The purpose of this report is to raise your understanding of drinking water and awareness of the need to protect our drinking water sources. These reports provide an overview of last year's water quality. Included are details about where your water comes from, what it contains, and how it compares to State standards.

The City of Rome sells water to the systems listed above. In addition, the Mohawk Correctional Facility, Town of Lee and Town of Floyd sell some water back to the City of Rome. Therefore, although water from Floyd may never reach Westmoreland, the residents of Rome, Floyd, Lee and Westmoreland are to be provided with the reports of each water system. This compilation of reports will serve that purpose.

The City of Rome report includes all general information, required notification language and definitions. All purchase system reports include only the information specific to each system.

All reports are included in the following pages.

The reports can be downloaded from <http://romenewyork.com/wp-content/uploads/2016/04/Annual-Drinking-Water-Quality-Report-2015.pdf>.

Please contact the Oneida County Health Department at 315-798-5064 if you have any questions regarding these reports.
