

# **Safe Use and Proper Care for Your Carts**

Your new Cascade Cart™ is made of durable, extra strength, injection-molded plastic and equipped with features like a dual bottom wear strip, heavy-duty wheels and axels to ensure years of dependable services.

## **LOADING YOUR CART**

To place garbage in your cart, always lift the lid from the front. Be careful not to overload your container in excess of your ability to safely maneuver it. Do not place the following in your cart:

- Paint
- Solvents
- Oil
- Hot ashes
- Sand
- Rocks
- Acids
- Medical waste
- Soil
- Gasoline
- Exposed needles

## **PLACING CART FOR COLLECTION**

Make sure the lid is closed. Grab the handle and use the convenient “tilt and go” design feature (between the wheels at the rear of the cart), and tilt the cart back slightly. Now, safely and easily push or pull the cart. The cart is designed to withstand dragging, however, for ease of use, tilt and roll. Don’t forget, always close the lid before moving, and on inclines pull the cart uphill and put your cart out by 7 a.m. on your specified pick-up day and place it with the arrows facing the pick-up point (street or alley). Always keep the lid closed. This will keep animals, rain, snow and ice out, refuse and odors in the cart. Do not place your cart close to obstructions such as mailboxes, utility poles, fire hydrants or parked carts.

## **AFTER COLLECTION**

Do not leave your cart on the curb or street. To help maintain the appearance of your neighborhood, remove your cart as soon after collection as possible. Your new cart is designed to be stored in your garage or other convenient location next to your home. Take care to not store your cart close to a furnace, fireplace, grill or other source of excessive heat.

## **CARING FOR YOUR CART**

Your new cart is designed for ease of maintenance. To clean, simply rinse your cart with water from time to time, let dry in sunlight with the lid open.
