

# LOSS CONTROL SERVICES

## Core Loss Control Services

**HF&C Loss Prevention Portal and Safety Resource Library** – Clients have access to the HF&C safety portal which contains self-paced sample safety programs, toolbox safety meeting topics, PowerPoint presentations, safety quizzes, posters, and more. Our safety materials are available anywhere with an internet connection and are available to you for download for offline use.

**Haylor Safety Push Notifications** – Clients receive regular notices on changing safety and health regulations, information on leading safety issues such as the most frequently cited safety OSHA/PESH standards, and sample documents to comply with regulatory requirements

**Safety Help Desk** – We provide access to certified safety professionals to answer your safety and health and regulatory compliance information

**Risk Management Seminars** – You'll receive invitations to HF&C risk management seminars that cover such topics as Cyber Security, NYS Sexual Harassment training requirements, OSHA/PESH Compliance

*Preview of our Safety Resource Library*

## Enhanced Loss Control Services

**Semi-Annual Loss Prevention Meetings** - Site Safety Inspection, Loss Trend Analysis, High Level, Training, Auditing, Regulatory Compliance Assessment

**Loss Control Marketing Profile** – Our consultants create an underwriting marketing report that highlights your safety and loss control activities. The objective of this report is to “tell your story” to help get better pricing and coverage.

**Carrier Loss Control Interaction** – Review of carrier loss control recommendations, negotiate recommendations as necessary and/or provide information to help comply with the recommendations; Conduct pre-carrier inspections visits and/or participate in carrier loss control inspection visits to help get more favorable outcomes.
